CM/ECF Changes & Updates

This section includes information regarding changes and updates to CM/ECF events, menus and the way the system processes information.

Trustee's motion to amend order regarding plan

The event **Bankruptcy > Trustee/US Trustee > Trustee's motion to amend order regarding plan** has been created. This event replaces the event *Trustee's motion to amend order approving debtor's modified plan*. The event was modified to include radio buttons for selection of either 1) order confirming plan, or 2) order approving modified plan. The event also requires linkage to the related order and the radio button selection will generate appropriate docket text.

Motion to Redact/Restrict from Public View

The event **Bankruptcy > Motions/Applications > Redact/Restrict from Public View** and **Adversary > Motions > Redact/Restrict from Public View** has been modified. The event now has a prompt at the beginning of the event asking the filer "Are you amending a previously filed motion to redact/restrict?". If the filer chooses "Yes", this will prevent ECF from generating a filing fee on the amended motion.
